Program Objectives

Support 1,000 seniors/disabled adults with our care advocate services, which include acting as a case manager for more complex client situations.

Actively provide interventions, referrals, and/or education services for at least 60% of North County Fire or hospital-referred clients.

Provide 5,000 donation-based, wheelchair accessible rides in town and healthcare-related rides out of town.

Provide 2,000 total days of day care for seniors and disabled persons, including at least 100 scholarship days.

Program Outcomes/Measurables

We helped 352 senior and/or disabled Care Advocate clients this past quarter. We made 70 home visits, supplied 40 individuals with durable medical equipment, and helped over 30 clients with housing related issues.

Of the 34 clients we helped through our Door Through Door program, we were able to provide 69 referrals, initiated or responded to 194 correspondences with clients, family members, hospitals, or other healthcare agencies. On 37 separate occasions, we worked with healthcare facilities or families to try to prevent an unsafe discharge, through education and ensuring resources are available upon

discharge to avoid readmission due to lack of support. In 9 of those situations, we were able to influence a decision that prevented an unsafe discharge. For 50% of those clients, we were able to actively engage with them and provide services. This is 10% below our target goal of engagement.

Of the 5,000 wheelchair accessible rides we expect to provide this year, we gave 1230 in-town rides to 91 clients, and 172 out-of-town rides to 40 clients. This quarter, 61 of these rides were for wheelchair transport.

Of the 2,000 total days of Adult Day Care services we expect to provide this year, we provided 391 days of care for 14 seniors and disabled persons during this past quarter. This includes 38 of our projected 100 annual scholarship days. Unfortunately, several of our 4 or 5 day/week clients had changes in their healthcare or home caregivers this quarter, thus significantly lowering our projected days of service.
