Organization's Mission Statement

Our mission is to acquire, protect, and manage open space in perpetuity for the benefit of wildlife and the community.

Organization's Vision Statement

Our vision is a tapestry of protected open spaces that provides high quality habitat in which native flora and fauna thrive while meeting the needs of the community through education, engagement, and recreation.

Agency Capability

The Fallbrook Land Conservancy (FLC) is a 501(c)3 nonprofit that was founded in 1988 to protect open space in Fallbrook and has since expanded to permanently protect over 3000 acres of land around San Diego County. The FLC's Save Our Forest (SOF) committee has been connecting students to nature through its Environmental Education (EE) program since 2005. The SOF EE program introduces students in local public schools to the concepts of native plants, conservation, and volunteerism. Volunteers first visit 4th grade classrooms and present an interactive lesson, followed up with a hands on activity potting a native plant seedling. Later in the year, 5th graders take a field trip to a FLC preserve and plant the seedling they potted last year into the ground as part of a habitat restoration effort. Historically we offered the program at five schools with a total of approximately 800 students.

Unfortunately, COVID caused the program to pause during the 2020/21 school year, but SOF volunteers used that time to seek funding and plan an expansion to the program. Thanks to grants from FRHD and SDG&E, we were able to resume in 2021/22 and add two new schools, including a new school district. This expansion increased the number of 4^{th} and 5^{th} grade students offered the program to 978, our highest participation ever. In the summer of 2022, we will also offer two series of field trips with hands on activities to approximately 24 children enrolled in the Boys & Girls Clubs of North County.

Agency Collaborations

The FLC/SOF collaborates with Fallbrook Union Elementary School District (FUESD) and Vallecitos School District (VSD) to provide the SOF EE program. SOF volunteers work with school district staff to schedule the EE Program's in-school lessons and field trips to local preserves. The Districts provide the field trip transportation, reducing the cost to our organization considerably. FLC/SOF leadership worked with FUESD science leads to update curriculum used in the program. Curriculum is designed to align with grade level Next Generation Science Standards and provide hands-on experiences for students who are learning about natural systems like food webs, water cycles, and evolutionary biology.

If funded, this grant will allow us to collaborate with Bonsall to expand the SOF EE program to serve their students as well.

The FLC has a partnership with Mission Resource Conservation District (MRCD) and Fallbrook Public Utility District (FPUD) that allows the FLC to use the MRCD's Community Garden as the location of our nursery, where we house the plants used in the education program. FPUD provides the water needed for the plants at no cost.

FLC is also collaborating with the Boys & Girls Club of North County (B&GC) to provide a series of weekly field trips for students in their program during summer break. B&GC will provide transportation to a FLC preserve and supervisory staff. FLC will provide a guide, materials, and hands on activities for the students.

Statement of Need/Problem

As shown in The San Diego Foundation Parks for Everyone 2020 report, downtown Fallbrook has less than 8 acres of parkland per 1000 people and a median household income below \$51,026. FUESD serves approximately 4800 students, 65% of whom are Hispanic, while 75% of all students are socioeconomically disadvantaged and 29% are English Learners.

According to an Analysis of the Educational and Health-Related Benefits of Nature-Based Environmental Education in Low-Income Black and Hispanic Children, "low-income and non-white children experience disparities in health, education, and access to nature. These health disparities are often associated and exacerbated by inequities in the U.S. educational system. Recent research suggests that nature contact may reduce these health and educational disparities for urban low-income populations. Nature-based education (NBE) uses nature contact to inspire curiosity and improve health." The study found "statistically significant positive changes" in science, technology, engineering, and math (STEM)-capacity and health-related quality-of-life for participating students.

A Stanford University analysis of over 100 studies found that not only do EE programs improve academic performance, but "a number of the studies showed that environmental education increased civic engagement and positive environmental behaviors."

Polling during our 2021/22 program show that 70% of students have not visited a FLC preserve before their 5th grade field trips. The FLC owns or manages over 3000 acres of open space in San Diego County. All our preserves that are open to the public are free of charge, however transportation to these preserves is a barrier. Someone who lives in downtown Fallbrook and doesn't have access to a car, may not have the opportunity to visit most FLC preserves. The SOF EE program ensures that local public school students are introduced to our preserve system and experience at least one visit to a preserve.

Statement of Need/Problem - Others

FUESD offers outdoor education to their students and this year has expanded from three grade levels to all grade levels having at least one day of outdoor education. Not all grade levels visit FLC preserves, however. Third through sixth grade students visit De Luz Ecology Center, which is a wonderful facility but is not easily visited again by many of the students since it is located in a remote area accessible only by car. The SOF EE program compliments FUESD outdoor education by offering additional outdoor learning opportunities at preserves that are open to the public free of charge and located close to downtown Fallbrook.

Program/Services Description - Program Entry

All students enrolled in 4^{th} and 5^{th} grade at participating FUESD, VSD, and BUSD will be given the opportunity to participate in the program. Parents only need to sign the permission form for their student to participate.

The summer field trips for children enrolled in the Boys & Girls Club of North County summer program will be offered to parents as an additional opportunity available to their child during their regular time in the program. B&GC will publicize the program to their participants.

Follow-up services are built into our program through multi-year interactions. The SOF EE program begins with students in 4th grade and continues with those same students through their 5th grade year. The lessons given in 4th grade are reinforced during the 5th grade field trip.

While participating in the program, students are given a trail guide with map and illustrations of wildlife species they are likely to encounter at the preserve. Students are asked to share the guide with their families and invited to bring their families back to the preserve.

If fully funded during this grant cycle, the FLC will institute a youth ambassador program founded on the

tenets of the SOF EE program: importance of native plants, natural resource conservation, and volunteerism. This program will give students an opportunity to learn more about our local ecosystem, and will allow them a platform to share their interest in conservation with peers, increasing the impact of the SOF EE program.

Program/Services Description - Program Activities

The SOF EE program connects local public-school students with nature by introducing them to the Fallbrook Land Conservancy, California native plants, a local open space preserve, and the importance of community service and volunteerism. Since 2004, the SOF EE program has coordinated with the FUESD to offer engaging, hands-on lessons for students in fourth and fifth grades, culminating with a field trip to one of the FLC preserves to participate in a habitat restoration project.

In 4th grade, SOF volunteers visit each classroom, giving a presentation on the three main ideas of the program: the benefits of native plants, natural resource conservation, and community volunteerism. Students then have the opportunity to volunteer with the FLC/SOF by transplanting a seedling from a 2" pot into a 1 gallon container. In 5th grade, those same students attend a field trip to one of the local FLC preserves where the three main ideas are repeated, and students are taught how to carefully plant a native plant. This activity is followed by a guided hike in the preserve with a knowledgeable naturalist. Students are led in a discussion which allow them to integrate classroom lessons with the landscape and ecology of the preserve.

As described above, environmental education improves student's academic and health outcomes. The SOF EE program curriculum is designed to align with Next Generation Science Standards and reinforce classroom lessons. This maximizes the academic benefits of the program.

Our program is designed not only to benefit the student, but to extend the positive impact to their family and community at large. By introducing children to local preserves and equipping them with the knowledge to feel comfortable and confident visiting them, we are increasing the likelihood that they will motivate other family members to participate in outdoor recreation. Because marginalized populations typically have less access to recreational opportunities, and outdoor recreation is tied to mental health, this is especially important in our community.

While benefitting students in the moment, the SOF EE program also gives students the opportunity to "pay it forward" and participate in an activity that will also benefit future students and the community as a whole. Studies have shown that exposure to green space is beneficial to mental and physical health. When students in the SOF EE program take part in the planting activity, they are not just planting one plant, but assisting in a habitat restoration project that, over the years of the program, have resulted in many acres of degraded land being restored.

Our program utilizes volunteers to enable the students to do hands-on activities either one-on one with an adult or in small groups of 2-4 students per adult. SOF volunteers have specific environmental knowledge they can share with students on native plants and ecology, and provide an example of an active member of the community who models volunteerism.

Program Goal #1

The goal of the SOF EE program is to connect students with nature, encourage conservation of natural resources, and instill a life-long commitment to community service and volunteerism. In 2022/23 another goal is to expand the program to more students. Studies show that nature contact can improve health and academic outcomes. Our program provides repeated exposure to nature and equips students with the knowledge and confidence to continue to explore our preserves. By providing a guided hike, trail guide, and informing students that our preserves are open to the public free of

charge, we encourage them to return with their families and deepen their connection with nature. Volunteerism has also been shown to strengthen mental health and connection to one's community. The importance of community service is not only an important idea in our lessons, but students take an active role, volunteering with the FLC as part of the experience.

Program Objectives - Goal #1

Implement the school program across all District's 4th and 5th grade classrooms.

Implement summer program with the Boys and Girls Clubs of North County.

Program Outcomes/Measurables - Goal & Objectives #1

The SOF EE program will serve approximately 1000 students from 4th and 5th grade in FUESD and VSD. If funded, this grant will allow us to expand the program to serve an additional 450 students in the BUSD. Funding will allow the FLC to purchase approximately 725 seedlings and 725 one-gallon plants for the student plantings.

The FLC/SOF will also provide two, four-week series of field trips for students enrolled in the B&GC summer program. These field

- This is the value of the resources the agency will contribute to the program's cost. These may include funds from fundraising events, private donors, in-kind goods and services, and volunteer efforts.
- > OTHER FUNDERS: These are funds or resources provided from contracts, grants and partnerships that are used to support the program's operations.
- > REQUESTED FROM FRHD: This is the funding request you are putting forward to the District.
- The line item names may not fully align with your budget. Please edit those items to align with your budget. Explain those items on your Budget Narrative Form as necessary.

A INDIRECT EXPENSES:

This section is for expenses that are part of indirect operats of the program, necessary which may not be part of the direct service provision expenses (Adminsitration, facility expenses, general liability ins., etc.). Please refer back to the training materials for clarification of these expenses. The District will not consider funding more than 25% of these expenses

B PERSONNEL EXPENSES - PROGRAM SPECIFIC:

As stated, this section is for staffing expenses that are directly related to the provision of the services/program. Please list each position title separately, unless there are multiple of the same title then use (x3) as an indicator. For example, if funding salaries for four separate Drivers, you would indicate as, Driver (x4) and the expense amount would be the cost of all four Drivers. Please include a single line items for general staffing expenses such as personell expenses (Payroll taxes, WC, etc). Benefits (health, retirement, etc) should be listed on a separate line.

C DIRECT PROGRAM EXPENSES:

This section is for supplies, items and or specific expenses related to the provision of the services/program. This may include phone, rent, prining, program related insurance (e.g., vehicle), trainings and cetifications.

3 Revenue Sources

Please list all sources of revenue the agency recieves by category. This Form has two > sections, one for Agency Funding and one for Project Funding. Please fill out both sides of the table. Amounts do not need to be exact; however, we ask for best estimates.

4 Budget Narrative

There are headers that align with the Budget Form. These items should be explained (narrative) if they are unsusual or have a specific project impact. Explanations regarding utility expenses are generally understood, but expenses relating to trianing or for a specilarity insurance could be expressed here.

5 Budget Reporting Form

This form will be used for those grantees who are awarded contracts. This form would be

> submitted with the quarterly Impact Report and should demonstrate that funds were allocated according to the submitted proposal budget.
