fallbrooksmiles@gmail.com

**Ages Served:** Children (infants to 12): 85%  
Young adults (13-18): 5%  
Adults (18-60): 5%  
Seniors (60+): 5%

**Gender:** Female: 60%  
Male: 40%

**Select the income limit category of your target population:** We do not collect this data

**How many residents directly benefited (participant/client) from this program:** 0

**Approximately how many residents received an indirect benefit:** 0

**The following category was identified as the best descriptive of the program's primary goal and objectives:** Prevention/Education: Supplies/training of health practices or to prevent/control of disease/injury.

**You defined the measure of success of the program's interventions or services during the application process.:**

**Define goal #1 for this program :** Conduct activities that improve child and adult health in the community.

**Number of Objectives for this program:** 4

**Objective 1:** Co-facilitate with the FRHD, monthly Community Collaborative for Health and Wellness (CCHW) meetings, except in December.

**Objective 2:** Offer:

-school based dental screenings, fluoride varnish application and education to 2nd graders in the Fallbrook Elementary School District and Bonsall School District.

-school based dental screenings to kinders and 1st graders in the Fallbrook Elementary School District and Bonsall School District who need their oral health assessment form completed

-conduct school based dental screenings and education to all students at Vivian Banks and Vallecitos Schools.

**Objective 3:** Offer BMI and blood glucose screening to 5th and 7th grade children in the Fallbrook Elementary School District.

**Objective 4:** Conduct community based health screenings.

**Measuring Success for Goal #1:** Quarter 1:

Objective 1: 3 CCHW meetings held

Outcomes: 3 meetings were held, July, August and September.

Objective 2: 75% of Bonsall and Vallecitos School District dental screenings/education scheduled. Review and revise as needed the permission slips and parent report forms for all 3 school districts.

Outcomes: All school districts held school virtually during this time frame, due to COVID-19. The future school schedule was not known and therefore school screenings could not be scheduled/conducted or forms revised as they may need to include different information when school resumes.

Objective 3: review and revise as needed the permission slip and parent report forms for school based BMI/blood glucose screenings. Outcomes: Since school has still been conducted virtually, due to COVID-19, it is not known how the forms may need to be revised when school is resumed. So, forms were not able to be revised at this time.

Objective 4: complete at least 2 health screenings.

Outcomes: we were not able to complete any community health screenings at the Fallbrook Senior Center or the Fallbrook Food Pantry Neighborhood Distribution Program. The Senior Center has had their congregate lunch program suspended. The CSUSM Nursing Students have not been available and therefore we have not pursued screenings at the Fallbrook Food Pantry Neighborhood Distribution Site.

**Define goal #2 for this program if applicable.:**

**Number of Objectives for Goal #2 of this program:**

**Objective 1 for Goal #2:**

**Objective 2 for Goal #2:**

**Objective 3 for Goal #2:**

**Objective 4 for Goal #2:**

**Measuring Success for Goal #2:**

**Participant Success Story:** Impact Narrative.pdf

**Please list how the Fallbrook Regional Health District's investment in this program was acknowledged during this reporting time frame. :** Acknowledgement of the Fallbrook Regional Health District.pdf
